President Schroers of the Board of Education advocates constitutional amendment allowing increase of school levy.

grain firm decided that the prices were out of line, and sold 1.000,000 bushels of July corn in St. Louis, and bought the same quantity for July delivery in Kansas City, allowing increase of school levy. allowing increase of school levy. In addition, this firm sold several hundres. Charles Gager, charged with highway rob-

About the same time, a big speculator in the St. Louis market conceived the idea of rouning a corner in July corn there. He calculated that St. Louis would not get much corn, with manipulation on a large scale, going on in the Chicago market.

Consequently he bought a big lot of corr

for July delivery with the expectation of exacting a high price for settlement from those traders who contracted to deliver corn in July and should find themselves unable to do so.

The St. Louis man thought he had every thing going smoothly until a few days ago Then he suddenly discovered that he would get a million bushels or more delivered on July contracts. He did not want the corn July contracts. He did not want the corn.

He wanted a chance to force the market
up and compel a settlement at high prices
by the distressed shorts. The St. Louis
plunger sought out the man who threatened to deliver to him a few hundred thousand bushels.

His broker was C. F. Orthwein's Son ommission Company, of which C. C. Orthwein of Kansus City, is the chief man. It happened, therefore, that the St. Louis market was dominated by two Kansas City men. C. C. Orthwein, representing the St. Louis plunger, had the "long" end of the deal. The "short" end was held by the Harroun Commission Company, of which A. L. Harroun is the head, in Kan-Special Trains Chartered.

GENERAL WHEATON AT PEORIA Received at His Old Home With Demonstration.

Peoria, Ill., July 11.-General Lloyd Wheaton, accompanied by Captains Bash bec, aver in court that an offer was made to settle the cases against the fugitives on here at 12.25 to-day. The party was met at payment of 1500 mm, to the United States.

here at 12:25 to-day. The party was met at the depot by a distinguished group of citizens and military men.

Mrs. Wheaton and Miss Lucille Dent, a niece of Mrs. U. S. Grant, also accompanied him. The party was escorted to the National Hotel, where hincheon was served. At 2:30 there was a parade of military and civic societies, which was reviewed by General Wheaton from a platfrom erected in the Courthouse yard.

The city is in gala attire, and has accorded him a grand reception. As the train drew up to the Rock Island Station a salute of thirteen guns was fired. The gun used in firing the salutes was a 12-pound smoothbore, which did service in the Civil War, and was in charge of Captan Short, the sole survivor of the Eigh battery, which gained fame in the sattles.

As the train passed through Henry, Ill, the G. A. R. paraded on the plat form, with a fife and drum corps and a brass band. A battery of artillery fired a General's salute as the train passed, it only stopped for a moment, and the General bowed his greeting to the throng from the rear platform of his special train. E. W. Grove.

This name must appear on every box of the genuine Laxative Bromo-Quinine Tableta, the remedy that cures a cold in one day. 25c.

Mr. Francis Says Census Statement Is Indefinite.

A report on the discrepancies between the Census Bureau's mortuary records and those of the Health Department was made yesterday by Assistant Health Commissioner Francis. He said the Government rec-ords are incomplete, indefinite and "brist-ling with errors." while the department's records are as correct as could be distred. The bureau claimed that 434 more deaths were in its records than appeared in the department's records. Mr. Francis said the bureau's records were prepared in such a way that names could not be verified, as in many cases names and addresses. er Francis. He said the Government rec

way that names could not be verified, as in many cases names and addresses were wrong or illegible.

In the mortuary records ist of the names were found. In 103 cases physicians said they had no knowledge of the deaths reported. Mr. Francis drew attention to other difficulties which prevented comparison between the records. In several cases the name of Johnson was given in the column of "attending physician" and several cases the name of Smith. It was found that there are nine Doctors Johnson and ten Doctors Smith in St. Louis.

JOSEPH Q. MURPHEY DEAD. Succumbed to Heart Disease at

Home in Finney Avenue. No arrangements have yet been made for the funeral of Joesph Quinian Murphey, who died suddenly of heart disease yesterday at his residence, No. 4119 Finney avenue. His mother, sisters and brothers, except Edward, who was preparing to go, were spend-ing the summer at their cottage at Hessel, Mich. They were notified yesterday and

are expected here to-day.

J. Q. Murphey, who was 21 years old and single, was local agent for an Eastern single, was local agent for an Eastern men's furnishing goods company and had ar office in the Mermod-Jaccard building. He retired at his usual hour Thursday night, without signs of ill health, in fact he claimed to be feeling better than usual. Yesterday morning when he failed to appear for breakfast his brother became worried and went to his room to find out the cause of his delay. Falling to get a response to his repeated knocking at the door Edward forced an entrance and found his brother lying upon the floor by his bed partly dressed, dead.

Mr. Murphey was a writer of no mean ability. His first effort to attract universal attention was his "Battle of Dundee," being a description of the Boer war.

KILLED BY THROWN STONE. Concussion of Brain Caused Death of Little Robert Meyer.

Robert Meyer, 6 years old, son of Mr. and Mrs. Robert Meyer of No. 2441 Missouri avenue, died at his home yesterday morning from injuries sustained July 1 by being cidentally struck on the forehead with a

The child's de of the brain. cussion of the brain.

The Meyer boy was playing with some companions on a vacant lot on Illinois avenue and some of the children began throwing stones. The little fellow was struck over the right eye. The stone was thrown by Charles Minningroder, 12 years old, of No. 332 Illinois avenue, and accidentally struck the Meyer child.

TRULES AND COURSE ANNOUNCED

Figure Eight Aerial Track in the Form of an "L" Will Be Fifteen Miles on One Leg and Ten Miles on Other-Conditions of World's Fair Contest for \$100,000 Prize and Subsidiary Awards.

RACES TO TAKE PLACE BETWEEN JUNE AND SEPTEMBER, 1904.

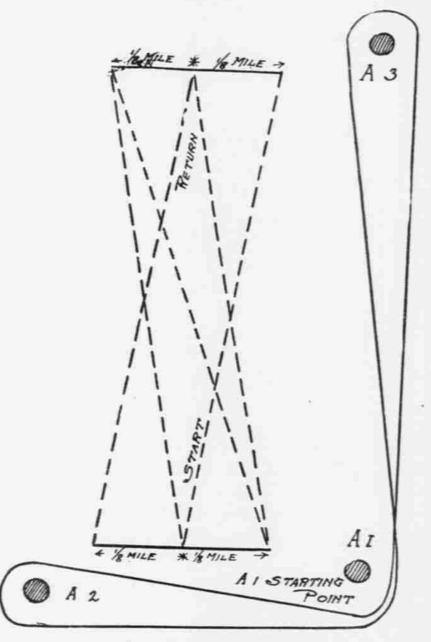

Diagram illustrating the shape and distance of the aerial course over which the air-ships will race. The length of the course on its longest leg will not be greater than fif-teen miles and not greater than ten miles on the shorter leg.

Official rules and regulations for the view from all parts of the Exposition areonautic contests at the World's Fair. were made public yesterday afternoon by the Exposition management. These regulations are the result of the conference some time ago, in which M. Santos-Dumont participated.

A committee of experts consisting of Thomas W. Mosher of New York, Professor A. L. Retch of Harvard, Octave Chanute of Chicago, Professor'S. L. Langley of the Smithsonian Institution, Professor Calvin M. Woodward of Washington University, Robert Moore of St. Louis and F. J. V. Skiff, Director of Exhibits, draft

the rules. The codified form of the regulations as they are placed before the world, is the jury having charge of the contests, work of Willard A. Smith, Chief of the Award Determined by Spe Department of Transportation, and Professor Woodward. The completed rules competitor whose average speed in his were submitted to World's Fair Directors | three fastest trips around the course shall Charles W. Knapp and Nathan Frank, the be the greatest according to the rules and Exposition special Committee on the regulations, Aeronautic Contests, and in turn were anproved by the World's Fgir Executive Committee and the Board of Directors. The

General Rules for Contest. The Louisiana Purchase Exposition has

appropriated the sum of \$200,000 for an seronautical competition and exhibition, of this a sum of \$100,000 is offered as a grand prize, to be competed for and awarded under the rules and conditions hereinafter prescribed. Fifty thousand dollars has been appropriated for minor and subsidiary prizes for competitions between airships, balloons, airship motors, kites, etc. The remaining \$50,000 is reserved for the ex-

penses incident to the competition. The following rules and regulations being general in their character, such miner rules not inconsistent therewith as may deemed necessary, may be promulgated as occasion may require:

The competition is open to all without limitation as to the power used or me-

chanical principles involved, No applicant shall be admitted to the competition who does not present estisfactory evidence of having at some time made a flight over at least a mile course and return with a machine similar in principle to that which he proposes to use in the competition. The submission of this evidence may be delayed to within ten days of the first competitive trial, if reasonable cause for such delay seems to exist. The Aeronautical Jury may rule out, after due investigation, any machine deemed too haz-

ardous to life. All preliminary entries shall be considered as confidential. No vehicle shall be admitted to the conest which requires any permanent and visible connection with the earth or which is not absolutely free in its flight after the

start is made. As an evidence of good faith, an entrance fee of two hundred and fifty dollars (\$250) will be required, which will be refunded when the exhibitor occupies the space assigned him with an apparatus conforming

Each vehicle shall carry at least one per son during its flight.

For Grand and Minor Prizes,

The competitor making the best average speed in strict accordance with these rules and regulations, provided that he has made the entire course three times at an average speed of not less than twenty miles an hour each time, shall be awarded the grand prize of one hundred thousand dollars, together with a suitable diploma, medal or

There will be four minor prizes consisting as follows: First, prize \$3.500, second prize \$2,000, third prize \$2,000, fourth prize \$1,500. These shall be awarded in order of speed to the four competitors coming nearest to the record of the winner of the grand prize, provided that each of them shall, at least, have made the full course three times, and each time at an average speed of at least ten miles an hour. Each winner of one of these prizes shall receive a suitable diploma, medal or certificate recording his achievement.

Racing Course Prescribed.

The prescribed course will begin and end in the athletic amphitheater, adjoining the aeronautic stabling ground in the Exposition inclosure. If, for any reason, this appears to be impracticable, the aeronautical jury may permit the start and finish to be from other parts of the aeronautic inclosure.

The course will be shaped like the letter In one leg being the shorter and in full

grounds. It will be marked by three cap tive balloons (at points marked A-1, A-2 and A-3, in diagram herewith). The starting point will be the angle B. The aeronaut shall have his choice of the direction in which to start, but he shall turn around the captive balloons, A-2 and A-3 in opposite directions, i. e., one to the right and the other to the left. The length of the entire course will not

reckoned in an air line from center to center of the captive balloons, the exact length and direction being determined and accurately measured by the international Award Determined by Speed. The grand prize shall be awarded to the

be less than ten miles (16 kilometers), nor

more than fifteen miles (24 kilometers),

Every competitor will have the privilege, at any trial, of passing over the course without stopping, as many times as he desires in a continuous flight, and in such case his time as recorded by the judges shall be the average time in which he covers the full course, but this shall count

as but one trip. Every competitor shall make as many trials as he chooses within the hereinafter prescribed dates. No trial will be con sidered by the judges in which he does not go around the prescribed course once, and the navigator must make in the period allotted for the contests at least three complete trips around the course. The average time made on each of his three best trips nust be at the rate of at least twenty miles an hour, including the time consumed in the starting and landing, reckoned from the time that the vehicle parts free of the ground or starting stage, until his car again touches the earth within a radius of fifty yards from the starting point without serious injury to either mun or apparatus.

Each contestant's official time shall be the average of the records of his three best The average speed of the machine shall

be computed for the actual air line distance

over the ground, making no allowance for

the wind or for deviations from straight lines to or from the captive balloons Date for Competitive Trials. The competitive flights must take place between the first day of June and the thirtieth day of September, 1994, inclusive. The specific weeks for the trials will be determined by the international jury and announced in advance. Each competitor must make at least one trial within each of said

weeks, but he may choose his own day or days, which must be days on which the Exposition gates are open to the public, and such choice must be announced to the judges, before midnight of the day previous, so that announcements may be published n the morning papers.

The start must be made between 10 o'clock a. m. and sunset. If on September 30 it shall appear that two or more competitors have made equal records, the jury shall prescribe a further trial or trials, under the same rules and regulations as have governed the preceding

ontests. The successful competitor must give hree exhibition flights after September 30, but the award shall be in no way affected by the success or failure of such exhibitions. In order, however, to insure such exhibitions taking place the Exposition Company may withhold 30 per cent of the total grand prize and pay one-third of the amount thus withheld to the successful competitor after each of said three exhibitions.

Other Aerial Contests. A price of \$2,500 is offered for the flying

nachine, not carrying an operator, making

a straightaway run of a mile and return, to approximately the starting point in the shortest time of actual flight. In addition to the weight of the complete machine with all its appurtenances and fuel, it must carry a load of ten pounds. The details of the time of this contest will be determined by the international jury. The judges shall es-tablish two parallel base lines, one-fourth of a mile long and at least one mile apart. These lines will be laid out on the day of vailing wind, if any. The machine shall be started from the center of the leeward base line and at right angles to it, and shall proceed against the wind. It shall cross the other base line before landing; and may then be caught and started back from the center of the windward base line, proceeding down the wind and cross-

ing the leeward base line practically as indicated by the diagram herewith. The judges may, in their option, order that the empetition for this prize shall be made

A prize of \$2,000 is offered for the glidling machine mounted by an operator, which shall advance in a calm or against the wind at a vertical angle most acute with the horizon. It shall make at least twenty glides of not less than 400 feet each. A prize of \$1,000 to offered for the gidding machine, mounted by an operator, exhibiting the best automatic stability in the wind during at least forty glides, not less than 400 feet each, under the rules to be pre-ported by the judges. Each competitor may provide special appurtenances for starting and landing, at his own expense.

Motors or Dirigible Balloons.

A first prize of twenty-five hundred dol-lars (\$2.50) and a second prize of one thou-sand dollars (\$1.60) are offered for the pirsand dollars (\$1,600) are offered for the nir-ship motors other than the exact machine winning the grand prize having the least weight and the greatest efficiency in pro-portion to their power. There are no limi-tations as to the kind or type, but the motor must have a minimum capac-ity of one-brake horse-power. The weight of the motor is to include all appurtenances (tanks, water, etc.), and fuel or its equivalent, for a run of one hour. It must be so constructed that it can be attached to an apparatus for making a brake test. The first test will cover one hour's run to determine power, and the secend test a continuous run of ten hours for ascertaining the reliability and durability

of the apparatus One prize of three thousand dollars (\$3,000) for a successful attempt to drive an airship motor by energy transmitted through space, either in the form of electric radiation or in some other form of elec-trical energy, to an actual amount of oneenth of a horse power at the point of re ception and at a distance of at least 1,000 cect. The test must be made on the Expocition grounds by experts satisfactory to

Four prizes of five thousand dollars (\$5. 200) each are offered to the aeronauts who win in the following contests, each being the first and only prize in its class contests will be open to balloons and air-ships or aeronautical vehicles of any type o carry at least one person. For the greatest altitude attained, start-ing from the Exposition Grounds. For the longest time in the air, starting from the Exposition Grounds.

For landing nearest to the Washington Monument in the city of Washington, D.

Prize for Balloon Contests.

C., the start being made from the Exposion Grounds in St. Louis. For the longest distance traveled in one flight in any direction starting from the Exposition Grounds. Time-These four contests will take place on four different dates, to be announced by the jury at least six days before the dates, on which every contestant must start. In the race to Washington, it. C., each contestant may make as many subsequent trials as he may choose prior to the first iny of November, 1904, at which time the

Entry Fee-An entry fee of two hundred ad firty dollars (EDS) will be required in ich of these four contests—the tee to be turned after the competitor takes possession of his space and is ready for the competition. Rules for Kite Competitions. The competition is open to all, without limitation as to form or dimensions of ap-paratus. Any competitor may present sev-eral kites and shall provide all necessary

operators. There will be two classes of competition, upon dates to be hereafter selected and announced. One for an altitude of See feet, to be reached with a ine 800 feet in length, and one for the greatest height attained by a single kite, to be not less than one mile, with any length of line. The latter requires that there shall be at least two contestants. All the kites shall be sent up simultanusey in each contest; the operators being located as not to interfere with each

In the competition with 800 feet of line, in prizes will be: First prize five hundred olars (45.0); second prize three numired clars (58.6); third prize two hundred deleases. competition to a height of at least

lars (Ree); third prize, two hundred dol-iars (1999).

Each contest shall be two hours in dura-tion and all the kites must be maintained in the air during this entire period.

For the contest with 800 feet of line, each competitor shall first measure off 800 feet of line furnished by himself. No conditions are imposed as to the material, size or weight of the line. The jury will measure the angle made with the horizontal by the line of sight, from the end of the kite line. line of sight, from the end of the kite line at the ground to its point of attachment to the kite, and will also judge and estimate the stability of the kite in making the awards. Equal importance will be given to the greatest angle attained and to the stability. the awards. Equal importance will be given to the greatest angle attained and to the stability.

For the contest for the greatest height attained by an single kite each competitor shall be eligible for the first prize, which

WAS ASSAULTED. Unidentified Man Seriously Injured Al Cook.

In a quarrel over the payment of drinks Al Cook, a waiter, employed in a mileon at No. 811 Market street, was yesterday stabbed in the chest by an unidentified man and seriously injured. He was taken to the City Hospital for treatment. Cook told the police that several men had entered the saloon, and, after ordering a round of drinks, had refused to pay for them. A quarrel followed, and, according to Cook, one of the men assaulted him with a beer bottle. He tried to defend himself, and was stabled by one of his asto Cook, one of the men assaulted him with a beer bottle. He tried to defend himself, he said, and was stabled by one of his as-saliant's companions.

Doctor Rassieur at the City Hospital stitched the wound in Cook's chest and pronounced it not serious. The latter is 21 years old and single.

DOCTOR A. C. HIRST DEAD. Was Well-Known Preacher and

Educator. Omaha, July 11.-The Reverend Doctor A. ". Hirst, paster of the First Methodist Church of this city, died early to-day at the home of his sister in Chicago. Doctor Hirst came to Omaha from the Centenary Church, of Chicago, of which he had been pastor for several years. He was one of the best-known preachers in the Methodist Church of the United States. At one time he was president of the Uni versity of the Pacific at San Francisco, resigning that place to go to Chicago. At other times he was pastor at Pittaburg, Pa.; Chillicothe and Columbus, O., and many other important places.

DENVER. COLO.—Mrs. Queen V. Cole has filed suit to recover one-half the property, principally Denver real estate valued at \$40,000, which was recently presented to the Peniel Trust, a Methodist organization, by her husband, Henry Cole, despite her protest.

Sore muscles, aching bones, neuralgia. extreme debility, and great depression-all due to malarial poisoning. The cure is prompt, positive, and neverfailing with

Ayer's Malaria and Ague Cure If living in a malarial coun-

try, take one or two doses each day. It will prove a sure preventive. Not an unfavorable symptom follows its use.
